

12 April 2019

Dear Parents

### Nexgen Tech Club

Your child has registered to participate in the Nexgen Tech Club program which commences on Tuesday 30 April (Week 1) of next term.

Your child will get the opportunity to learn how to code, experience Arduino Micro-Controllers, and use 3D Modelling and printing. Additional to this, they will be exposed to opportunities that allow creative thinking, being part of a team and seeing how tech can be fun.

Your son/daughter is staying on the school site and therefore the expectations that we hold during school hours are still applicable. Students will be expected to stay within the allocated space and ensure that their behaviour reflects the 3Rs.

Students are required to go the Upper Library straight after school where they will meet a member of the Nexgen Codecamp team. The session will run straight after school till 5.00pm.

**Requirements:** Students should bring their afternoon tea and their iPad.

If you have any further queries regarding the running of the program please do not hesitate to contact Pete at [pete@nexgencodecamp.com.au](mailto:pete@nexgencodecamp.com.au) or Ilana at [ishaw@covenant.nsw.edu.au](mailto:ishaw@covenant.nsw.edu.au)

Yours in the service of Christian education

Mrs I Shaw  
Teacher of TAS

Mr T Hewitt  
Deputy Principal, Curriculum (7-12)
